

Introduced by Senator Knight

February 26, 1999

An act to amend Section 51230 of, and to add Sections 35041.3 and 51413 to, the Education Code, relating to the selective service.

LEGISLATIVE COUNSEL'S DIGEST

SB 1266, as introduced, Knight. Selective Service Act: registration: high school.

Existing law requires each public postsecondary educational institution to make every reasonable effort to inform all male applicants for undergraduate admission of their obligation to register in accordance with the federal Military Selective Service Act through one or more means, as determined by each institution. Existing law prohibits any person subject to the federal Military Selective Service Act from receiving any financial aid administered by the Student Aid Commission if that person has not registered in accordance with that act.

Existing law sets minimum requirements for graduation from high school and receipt of a high school diploma, or high school equivalency diploma.

This bill would, to the extent permitted by federal law, prohibit a school district from issuing a high school diploma, and would prohibit the Superintendent of Public Instruction from issuing a high school equivalency diploma, to a person subject to the federal Military Selective Service Act if that person has not registered in accordance with that act.

This bill would require that all pupils be taught about the importance of, and their personal responsibility to, the selective service obligation as a part of the course in American government and civics required for high school graduation, the consequences of failure to register, and be taught how to register, including, but not limited to, registration by use of the Internet.

Existing law authorizes school districts to appoint prescribed staff, including, but not limited to, police reserve officers, administrative advisors, and legal counsel.

This bill would, to the extent permitted by federal law, require the governing board or boards of any school district to appoint a selective services registrar for each high school, who may be a school employee or a school volunteer who is 18 years of age or older, to ensure that all pupils subject to the federal Military Selective Service Act enrolled in the high school have registered in accordance with that act.

By requiring school districts to comply with these new requirements relating to selective service, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

The people of the State of California do enact as follows:
